

LUXURY KITCHENS BEGIN WITH **VIKING**®

Being a leader requires confidence. It takes guts to create something in a space where nothing existed before.

Forty years ago we originated the professional-grade range for the home kitchen. Our industry-leading innovations in appliances set the American standard for the modern luxury kitchen. After leading the field for nearly four decades, we're just getting started.

Luxury begins right where it all began — with Viking.

THE FIRST. STILL THE BEST.
