

2020 ENVIRONMENTAL IMPACT AWARD

THROUGH PURSUIT OF SUSTAINABLE SOLUTIONS WITH PRATT INDUSTRIES,

VIKING RANGE LLC HAS ACTIVELY SOUGHT ENVIRONMENTALLY FRIENDLY PRACTICES IN THEIR PACKAGING.

FROM JANUARY 2008 TO JANUARY 2021, VIKING RANGE LLC'S USE OF PACKAGING MADE FROM PRATT INDUSTRIES' 100% RECYCLED PAPER HAS RESULTED IN THE FOLLOWING:

40,985,000

GALLONS OF
WATER SAVED

99,535

TREES SAVED

5,855

TONS OF CO₂
PREVENTED

23,420,000

KILOWATT HOURS
OF POWER SAVED

19,322

CUBIC YARDS DIVERTED
FROM LANDFILL

FOR EVERY TON OF RECYCLED PAPER USED:

17	Trees are saved	
4,000	Kilowatt hours of power are saved	
3.3	Cubic yards of waste from landfills	
7,000	Gallons of water are saved	
1	Ton of CO ₂ is kept from the atmosphere	

Savings numbers are based on Industry Averages for Manufacturing Processes compared to Recycled Fiber Papermaking processes. Results are not for any specific mill.

SOURCE: The main studies used for the calculation are from the Department of Energy and the Environmental Protection Agency.
